PROJECTS

- **Blog Website for Composing and Sharing Personal Blogs**:
  - Developed a platform for composing, editing, and sharing personal blogs with a clean, responsive design for a seamless user experience.
  - Integrated MongoDB for storing user-generated content and ensuring scalability, with navigation optimized for both desktop and mobile devices.
  - **Tech: Express.js, Node.js, EJS, Bootstrap, MongoDB.** (View the project: Source Code).

- **Internship Project at Girl's Armour Foundation**:
  - Designed and developed a responsive website with user-friendly features that align with the foundation's branding and mission.
  - Built the frontend using HTML, CSS, JavaScript, and Bootstrap, ensuring accessibility and smooth performance on various devices.
  - **Tech: HTML, CSS, JavaScript, Bootstrap.** (View the final site: Source Code).

- **PostMitra - Smart India Hackathon Project**:
  - Developed a solution to optimize postal services with features such as real-time tracking, delivery scheduling, and notifications.
  - Created a companion Android app with Flutter and Dart for mobile access to delivery schedules, parcel tracking, and notifications.
  - **Tech: Python, Node.js, React, MongoDB, Firebase, Flutter, Dart.** (View the project: Source Code).

SKILLS SUMMARY

Languages: Java, Python, TypeScript, JavaScript, Dart
Frameworks: Flutter, ReactJS, NextJS, ExpressJS
Frontend Development: HTML, CSS, Bootstrap
Backend Development: Node.js, MongoDB, SQL
Development Tools: Google Cloud, Docker, Git, GitHub, VS Code

PARTICIPATIONS AND CERTIFICATES

LoL Coding Club
Director, Student Coordinator (August 2023 - Present)
- Led initiatives, organized events, and oversaw projects, enhancing community impact.
- Organized and participated in hackathons, webinars, and workshops, strengthening leadership skills.

Hackathons
- **Innovate You Technathon**: Developed a **Web-Based Education Platform** for specially-abled children. (Feb '24)
- **Power-BI Hackathon** : Created a presentation on the Analysis of Flight Delays. (Oct '23)
- **Smart India Hackathon (SIH)**: Got waitlisted at the final level. Developed PostMitra, **a solution to optimize postal services**. (Aug-Dec '24)

- Solved **200+** DSA problems on **LeetCode** and other practice sites, improving problem-solving skills.
- Completed the **Google Cloud** Engineering Certificate. (View here)
- Artificial Intelligence Primer Certificate By Infosys Springboard (View here)
- Python Foundation Course By Infosys Springboard (View here)
- More certificates on my Portfolio(View here)
